Deep Peace *from* Well of Mercy

Dear Well of Mercy Family,

Our heart goes out to everyone managing life under radically different circumstances these days. We offer you Hope and Peace that comes from the sacred space of Well.

Please join us in saying the following prayer until we can open our doors once again. During this temporary closure to guests, the land has time to rejuvenate in preparation for the wonderful day when we are able to welcome you home once again.

Until that time, please join us on [Facebook](#) and new ways we hope to serve the world virtually in the weeks to come.

Well Blessings,
Sandra O'Brien

Deep Peace

Spring is upon us. From the Chapel of Mercy, we share new blooms and Deep Peace to sustain you.

Father. Almighty Creator and Matchless One!

All praise goes to you in this time of uncertainty. A virus is ravaging the world, yet you are there! You are there even when we don't see you. You are there, in your stance to do us good. I lift this land, and Well of Mercy, and all of those who frequently visit the Well. I pray that through the frenzy and chaos, you would help us to remain calm. Let us dwell upon our own healing breath. Let us remember all that we are grateful for, for our blessings are innumerable. Preserve that measure of health in each of us, and protect us from the COVID-19 virus.

I pray especially for the health care front lines, and the front lines of our service personnel. I pray for their safety, their health, wisdom and strength as they endeavor to serve us all, especially the sick and the suffering. Be with our local as well as federal government leaders. Give them accurate data with which decisions can be made with wisdom and compassion.

Let us all do our part in social distancing, and quarantine when necessary. Help us to thus decrease the impact that this virus will pose to our society. Be especially with those who have not shelter and sustenances, for they are many. Cover them, and us, with your grace and mercy. Let your healing touch intervene on behalf of the many affected in this crisis.

Help us to grow in our love for each other, for every friend as well as foe. And breathe your calm upon us, dispelling our fear and anxiety.

All praises go to you, Lord!

In Jesus name I humbly lift this prayer.

Amen!

Well Wishes *from* All of Us to All of You

Well of Mercy is temporarily closed to the public until further notice in response to current health concerns. Please know the staff continues to send loving prayers for your good health and spiritual strength. We look forward to serving you virtually and on-property in the near future.

Well Blessings
